

*American flavors are our  
specialty!*

Brodmir BBQ Bar is not just a restaurant. It is a unique place created out of a great love for America and a great passion for cooking. Not only do we put our hearts into the preparation of our dishes, but also flavors imported straight from the USA. Meats are prepared in combination with original American marinades and spices. Burgers, as well as steaks, are imported from organically raised American Angus cows. The interior design, full of unusual additions, brings the unusual climate of the United States closer. Unusual location right on the edge of the forest allows not only a real feast of flavors, but also gives the opportunity to take a breath of fresh air. We offer the possibility to organize special events for up to 70 people.
